Re: Status of Exploration Sites (Blue Mountain (E/001/106), Indian Peak (E/001/113), Blue Jay (E/001/112), Dead Horse (E/001/130), Wild Bill (E/001/071), 3-D (E/001/129), JB (S/001/051), and Goldstar (E/001/141), Omar Clay (E/001/122 – Jack Kettler), Omar Project (E/001/145), Beaver County, Utah

Dear Mr. Dotson:

The Division is in receipt of your May 5, 2003 letter, and also a copy of the BLM May 8, 2003 letter to you, regarding the above referenced sites. You had requested inspection and file closure of several of the sites. Because the projects were located on BLM land, we contacted the BLM to see what their status of the sites were. The BLM had to perform a field inspection before making any determination. Each letter is addressed as indicated below.

**Dotson - May 5, letter**

In reference to your letter regarding the Jack Kettler Notice (E/001/122 – Omar Project BLM# UTU-76364), a site inspection will need to be performed before this notice can be closed. Because you leased the Jack Kettler property and performed work under a separate notice (E/001/145 – Omar Clay), we have also included that site on our inspection list. We will try to perform this inspection within the next month. If reclamation work is adequately performed, these sites will be released after the inspection is made.

The Blawn Mountain site (S/001/051) was closed out and the file retired in February, 2003.

Since the JB Mine site (S/001/054) will need to be monitored for revegetation success for one year before the BLM will consider closing the file, the Division is unable to close this file.

**BLM – May 8, letter**

The Blue Jay site (E/001/112) is adequately reclaimed and the BLM is ready to close this file. **Therefore, we will also close and retire this file, per your request.**

Page 2  
Mark Dotson  
Status of Sites  
May 14, 2003

The BLM is requiring further reclamation of all the other sites as noted in the table which they provided; therefore, this office is unable to close our files, as you requested. We have attached a table listing the status of each site as now shown on our records. Billing statements are enclosed for the Blue Mountain (E/001/106) and Wild Bill (E/001/071), for the 2002 fiscal year. The permit fees for the other sites are current. **Please provide payment for these two sites within the next 30 days.**

The permit fees will be due again for the 2003-2004 fiscal year, which is due by the last Friday in July (July 25, 2003). You will receive another billing statement toward the end of June for all sites that have not been officially released and closed.

Thank you for your efforts in completing the reclamation work so these files can be closed as formerly requested. If you have any questions regarding this letter, or the attached table, please contact me at (801) 538-5321.

Sincerely,

A handwritten signature in black ink that reads "Tom Munson". The signature is fluid and cursive, with a long horizontal line extending from the end of the name.

Tom Munson  
Senior Reclamation Hydrologist
